11 April 2021

Dear Parents/Guardians and Staff,

This afternoon, April 11, 2021, we learned that a person in our Alburgh Elementary School learning community tested positive for COVID-19. We have reached out to the Vermont Department of Health and worked to identify everyone who might be considered a close contact. We have also reached out by telephone to any member of the Alburgh/GISU learning community who might be considered to be a close contact and have provided them with information about the need to quarantine. Based on the possible exposure date, the last day of the quarantine period is April 23, 2021. Students in this group will return to in-person learning on Monday, April 26. VDH has confirmed the school is safe for students and staff not in the Kindergarten cohort or identified as close contacts to return to the school any time. We will remain in contact with the VDH and will take the steps necessary to protect the health of all our students and staff.

Thank you for understanding that, due to medical privacy laws, we are not able to release the name of the individual with COVID-19. We ask for compassion and sensitivity for all those involved. We are closely monitoring this situation and will provide you with updated information as it becomes available. The VDH has advised that the Alburgh Education & Community Center is safe to remain open for school in the same model it was operating before the COVID-19 confirmation.

What can you do?

We recommend that you take action to help limit the spread of COVID-19, even if your child is not experiencing symptoms. This includes:

- Making sure your child is wearing a mask.
- Making sure your child is washing their hands.
- Maintaining 6 ft of physical distancing.
- Keeping your child home if they are sick.

- Calling your primary care provider if you or your child have symptoms of COVID-19.

COVID-19 symptoms include fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea. Parents and guardians of students exhibiting symptoms are asked to contact their family physician, the VDH, our District Nurse Emily Dousevicz (edousevicz@gisu.org) and their school health assistant. Staff exhibiting symptoms are asked to do the same in addition to notifying the District Human Resources Department. As always, the safety and well-being of our students, staff and families is our top priority. For more information about COVID-19, its spread, and contact tracing, please refer to this [link from the Vermont Department of Health](#).

If you have questions, please do not hesitate to contact me or your child's principal.

Sincerely,

Michael J. Clark
